

# Explorer Overboard!

You are an explorer on HMS KELSET. All the important explorers of the day are with you. Unfortunately the ship is overfull so not everyone will survive. It is your job to convince the grade 3's that you are worthy of staying onboard. You will do this by explaining **why** your explorations or discoveries were important to Canada or the world. You can also think about what might have happened if you hadn't made these discoveries or explorations. **DO NOT** retell the information from your slide show.

You may become your explorer (dress up) and tell from first person point of view why you should get to stay on the ship.

Or

If you know how to do animation you can make a short film that explains why you should get to stay on the boat. (show through animation your explorers contribution).

Or

Make a poster that encourages others to choose you to stay onboard. (you will need powerful pictures and you might want to use a Did you Know format)

Or

You can see the Captains of HMS KELSET, Capt Fawkes or Capt McManus with another idea of how you would like to present.

Your presentation should last 1 – 2 minutes. **REMEMBER** to focus on **why** your explorer should be chosen to stay onboard.

**Remember the more persuasive and informative you are, the more likely you will get to stay on board.**
